PRESIDENT'S LETTER

Greetings ASSP Colleagues,

Hopefully, we are in the early stages of a newer and better “normal” for all. That said, we should continue to be vigilant with our efforts to mitigate exposures to the coronavirus and its variants.

As we move into this next stage of economic recovery, pent-up demand and the ongoing supply chain problems will challenge us to ramp up operations to meet orders, accommodate timelines, etc. The rush to quickly produce and complete jobs often compromises our otherwise expressed dedications to maintaining orderly and safe work processes. The stronger our culture of safety, the more likely we are to successfully deliver to customers without exposing our people to risk.

On the subject of safety culture, this month we are delighted to present Rodney Grieve, the founder of BRANTA Worldwide, co-author of **SOAR: A Gate-to-Gate Journey of Leadership Essentials**, and author of the best-selling **Defend Your Profits: Safety Tools for Bottom Line Improvement**. He has over 20 years of industry and consulting experience helping organizations, teams, and individuals create a culture of success to produce outstanding safety results. Rodney is a featured keynote speaker and we're very fortunate to have

him as a special guest presenter for this month's ASSP Alabama Chapter on March 19th. I hope you'll be able to attend.

Take care, be well, and keep up the great work in your practice of safety!

Best,

Matt Hollub, CIH, CSP

President, ASSP Alabama Chapter

MARCH VIRTUAL MEETING REGISTRATION REMINDER

March 2021 Virtual Meeting

Special Guest Speaker Rodney Grieve

Identifying Cultural Hazards

Friday, March 19 | 11:00 am - 12:15 pm
